

25.-27 April 2023

# THE NEXT CUT

The trade fair for professional cutting technology.

## AN EVEN SHARPER VIEW FOR THE SECOND EDITION

Experience the best cut at CUTTING WORLD® – the unique trade fair focusing on the entire process chain for innovative cutting. Find out more about major industry innovations and use this optimal platform to cultivate existing contacts, make new ones and present your products in a pleasant ambiance. Concurrent congresses provide a combination of theory and practice – look forward to Deutscher Schneidkongress® PLUS and Deutscher Brennschneidtag® in adjoining congress rooms.

## FACTS & FIGURES

The only trade fair that focuses on the entire process chain of cutting

2,000 visitors

Space for networking and LIVE demos

**Influential Ruhr metropolitan area:**  
Location of many cutting plants and companies from the sector

60 national & international exhibitors

Synergy with **Deutscher Schneidkongress PLUS®**

„We're looking forward to participating in CUTTING WORLD®. As a trade fair exclusively dedicated to cutting, it brings real added value for us.“

Michael Roser,  
Sales Director, Boschert GmbH & Co. KG

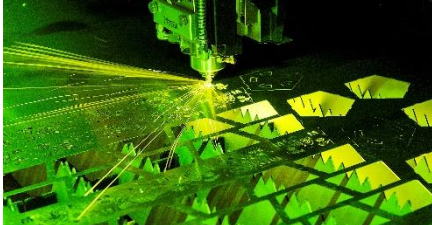

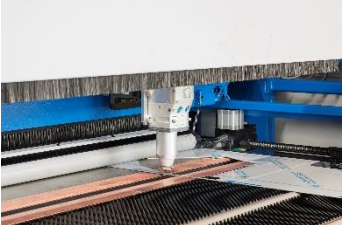

„ We are already in great excitement about the second edition of CUTTING WORLD in spring 2023. Companies that are already specialists in laser cutting, but also those that are just considering cutting metal themselves in the future, are in exactly the right place at the trade fair. With the presentation of our machine portfolio, we provide numerous insights into the simple operation of our laser cutting machines.“

Sascha Fritze,  
Business Unit Manager Laser  
Yamazaki Mazak Deutschland GmbH

„The right process gases are what make cutting perfect. Therefore, CUTTING WORLD is the optimal stage for Air Liquide to present our wide range in this important segment.“

Norbert Semsch,  
IM Offer Deployer Central Europe, Air Liquide Deutschland
